Volume 35, 2003
LIST OF CONTENTS

NUMBER 1

Papers

Obituary: Professor R.F. Borkenstein (1912–2002)
A.W. Jones, R.H. Liu and D.M. Lucas 1

The use of generalized estimating equations in the analysis of motor vehicle crash data
Caroline B. Hutchings, Stacey Knight and James C. Reading 3

Stated preference in the valuation of interurban road safety
Luis I. Rizzi and Juan de Dios Ortúzar 9

The impact of hands-free message reception/response on driving task performance
Peter J. Cooper, Yvonne Zheng, Christian Richard, John Vavrik, Brad Heinrichs and Gunter Siegmund 23

Health–health analysis—an alternative method for economic appraisal of health policy and safety regulation. Some empirical Swedish estimates
Krister Hjalte, Anna Norinder, Ulf Persson and Pia Maraste 37

Decision aid for allocation of transportation funds to guardrails
James H. Lambert, Jeffrey A. Baker and Kenneth D. Peterson 47

The use of multilevel models for the prediction of road accident outcomes
Andrew P. Jones and Stig H. Jørgensen 59

The influence of extrinsic and intrinsic risk factors on the probability of sustaining an injury
Roberta McLeod, Tim Stockwell, Rosanna Rooney, Margaret Stevens, Mike Phillips and George Jelinek 71

Economic consequences of injury and resulting family coping strategies in Ghana
Charles N. Mock, Stephen Gloyd, Samuel Adjei, Frederick Acheampong and Oscar Gish 81

A Bayesian hierarchical model for accident and injury surveillance
Ying C. MacNab 91

Field relevance of a suite of rollover tests to real-world crashes and injuries
Chantal S. Parenteau, David C. Viano, Minoo Shah, Madana Gopal, John Davies, David Nichols and Johan Broden 103

A before-and-after study of driver stopping propensity at red light camera intersections
K.M. Lum and Y.D. Wong 111

Personal, temporal and spatial characteristics of seriously injured crash-involved seat belt non-users in Hawaii
Sungyop Kim and Karl Kim 121

Matched-pair cohort methods in traffic crash research
Peter Cummings, Barbara McKnight and Noel S. Weiss 131

Estimating seat belt effectiveness using matched-pair cohort methods
Peter Cummings, James D. Wells and Frederick P. Rivara 143

Request for Proposals: Research in Transportation Economics 151

NUMBER 2

Papers

An on-road study to investigate fatigue in local/short haul trucking
Richard J. Hanowski, Walter W. Wierwille and Thomas A. Dingus 153

Correlation between modes of drinking and modes of driving as reported by students at two American universities
John D. Clapp, Audrey M. Shillington, James E. Lange and Robert B. Voas 161

Risk perception of traffic participants
Arianne T. de Blaeij and Daniel J. van Vuuren 167

A small area study of motor vehicle crash fatalities in Alberta, Canada
Leanne Kmet, Penny Brasher and Colin Macarthur 177

Effect of the helmet act for motorcyclists in Thailand
Masao Ichikawa, Witaya Chadbunchachai and Eiji Marui 183

Organisation of truck-driver training for the transportation of dangerous goods in Europe and North America
Rolanda Kuncyté, Claire Laberge-Nadeau, Teodor Gabriel Crainic and John A. Read 191

Correlation of head injury to vehicle contact points using crash injury research and engineering network data
R. Nirula, C. Mock, R. Kaufman, F.P. Rivara and D.C. Grossman 201

The validity and reliability of a portable slip meter for determining floor slipperiness during simulated heel strike
Raoul Grönqvist, Mikko Hirvonen, Erkki Rajamäki and Simon Matz 211

Fragility versus excessive crash involvement as determinants of high death rates per vehicle-mile of travel among older drivers
Guohua Li, Elisa R. Braver and Li-Hui Chen 227

Impact of safety belt use on road accident injury and injury type in Kuwait
Parviz A. Koushki, Mahmood A. Bustan and Nabil Kartam 237

A longitudinal study of risk factors for motorcycle crashes among junior college students in Taiwan
Mau-Roung Lin, Shu-Hui Chang, Lu Pai and Penelope M. Keyl 243

Applying the random effect negative binomial model to examine traffic accident occurrence at signalized intersections
Hoong Chor Chin and Mohammed Abdul Quddus 253

Age and sex differences in the risk of causing vehicle collisions in Spain, 1990 to 1999
Pablo Lardelli Claret, Juan de Dios Luna del Castillo, José Juan Jiménez Moleón, Aurora Bueno Cavanillas, Miguel García Martín and Ramón Gálvez Vargas 261

Accident prediction models for urban roads
Poul Greibe 273

The efficacy of bicycle helmets against brain injury
W.J. Curnow 287

NUMBER 3

Papers

Race, Hispanic origin, and socioeconomic status in relation to motor vehicle occupant death rates and risk factors among adults
Elisa R. Braver 295

Driving experience, crashes and traffic citations of teenage beginning drivers
Anne T. McCartt, Veronika I. Shabanova and William A. Leaf 311

Driver risk factors for sleep-related crashes
Jane C. Stutts, Jean W. Wilkins, J. Scott Osberg and Bradley V. Vaughn 321

Factors associated with fatal and injurious car crash among learner drivers in New South Wales, Australia
Lawrence T. Lam 333

Usability issues concerning child restraint system harness design
Christina M. Rudin-Brown, Jason K. Kumagai, Harry A. Angel, Kim M. Iwasa-Madge and Y. Ian Noy 341

Evaluating the reliability of automated collision notification systems
Mohan R. Akella, Chaewon Bang, Rob Beutner, Eric M. Delmelle, Rajan Batta, Alan Blatt, Peter A. Rogerson and Glenn Wilson 349

The paradox of driving speed: two adverse effects on highway accident rate
David Navon 361

Factors influencing injury severity of motor vehicle–crossing pedestrian crashes in rural Connecticut
Sylvia S. Zajac and John N. Ivan 369

Monotony of road environment and driver fatigue: a simulator study
Pierre Thiffault and Jacques Bergeron 381

The efficacy of an educational intervention in promoting self-regulation among high-risk older drivers
Cynthia Owsley, Beth T. Stalvey and Janice M. Phillips 393

Tiredness! a natural explanation to The Grand Rapid "DIP"
M. Thyge Corfitsen 401

Trends in fatal crashes involving female drivers, 1975–1998
Daniel R. Mayhew, Susan A. Ferguson, Katharine J. Desmond and Herbert M. Simpson 407

Upper extremity interaction with a deploying side airbag: a characterization of elbow joint loading
Stefan M. Duma, Brian M. Boggess, Jeff R. Crandall, Shepard R. Hurwitz, Kazuhiro Seki and Takashi Aoki 417

A comparison of headway and time to collision as safety indicators
Katja Vogel 427

Short communication

Modelling risk factors for injuries from dog bites in Greece: a case-only design and analysis
Constantine E. Frangakis and Eleni Petridou 435

Corrigendum

Corrigendum to: "A Bayesian hierarchical model for accident and injury surveillance"
Ying C. MacNab 439

NUMBER 4

Papers

Overall injury risk to different drivers: combining exposure, frequency, and severity models
Young-Jun Kweon and Kara M. Kockelman 441

The effect of cell phone type on drivers subjective workload during concurrent driving and conversing
Roland Matthews, Stephen Legg and Samuel Charlton 451

Estimating transport fatality risk from past accident data
Andrew W. Evans 459

Some methodological deficiencies in studies on traffic accident predictors
A.E. af Wåhlberg 473

An evaluation of four types of railway pedestrian crossing safety intervention
Brenda Lobb, Niki Harré and Nicola Terry 487

Effect of cellular telephone conversations and other potential interference on reaction time in a braking response
William Consiglio, Peter Driscoll, Matthew Witte and William P. Berg 495

The distraction effects of phone use during a crucial driving maneuver
P.A. Hancock, M. Lesch and L. Simmons 501

Effect of lowering the alcohol limit in Denmark
I.M. Bernhoft and I. Behrensdorff 515

The benefits of improved car secondary safety
Jeremy Broughton 527

Comparison of road crashes incidence and severity between some French counties
E. Amoros, J.L. Martin and B. Laumon 537

Getting off your bike: cycling accidents in Great Britain in 1990–1999
Mervyn Stone and Jeremy Broughton 549

How would setting policy priorities according to cost–benefit analyses affect the provision of road safety?
Rune Elvik 557

Analysis of injuries among pilots involved in fatal general aviation airplane accidents
Douglas A. Wiegmann and Narinder Taneja 571

Assessing the effectiveness of minimum legal drinking age and zero tolerance laws in the United States
Robert B. Voas, A. Scott Tippetts and James C. Fell 579

A behavioral comparison between motorcyclists and a matched group of non-motorcycling car drivers: factors influencing accident risk
Mark S. Horswill and Shaun Helman 589

Traffic fatalities and injuries: the effect of changes in infrastructure and other trends
Robert B. Noland 599

Short communications

Sleep debt, sleepiness and accidents among males in the general population and male professional drivers
Ned Carter, Jan Ulfberg, Birgitta Nyström and Christer Edling 613

Superstition, risk-taking and risk perception of accidents among South African taxi drivers
Karl Peltzer and Walter Renner 619

A bivariate zero-inflated Poisson regression model to analyze occupational injuries
Kui Wang, Andy H. Lee, Kelvin K.W. Yau and Philip J.W. Carrivick 625

NUMBER 5

Papers

Reducing injuries among Native Americans: five cost-outcome analyses
Eduard Zaloshnja, Ted R. Miller, Maury S. Galbraith, Bruce A. Lawrence, Lemyra M. DeBruyn, Nancy Bill, Kenny R. Hicks, Michael Keiffer and Ronald Perkins 631

Consideration of driver home county prohibition and alcohol-related vehicle crashes
Sarah Lynn Schulte Gary, Lisa Aultman-Hall, Matt McCourt and Nick Stamatiadis 641

Wireless telephones and the risk of road crashes
Claire Laberge-Nadeau, Urs Maag, François Bellavance, Sophie D. Lapierre, Denise Desjardins, Stéphane Messier and Abdelnasser Saïdi 649

Behavioural characteristics and accidents: findings from the Health Survey for England, 1997
R. Lalloo, A. Sheiham and J.Y. Nazroo 661

Identifying factors that predict persistent driving after drinking, unsafe driving after drinking, and driving after using cannabis among young adults
Dorothy J. Begg, John D. Langley and Shaun Stephenson 669

Factors associated with the likelihood of injury resulting from collisions between four-wheel drive vehicles and passenger cars
Robert W. Broyles, Lutchmie Narine, S. Ross Clarke and Daryl R. Baker 677

Changes in collision rates among novice drivers during the first months of driving
Daniel R. Mayhew, Herbert M. Simpson and Anita Pak 683

A disaggregate approach to crash rate analysis
Booi Hon Kam 693

Firearms in US homes as a risk factor for unintentional gunshot fatality
Douglas J. Wiebe 711

Analysis of traffic accidents at urban intersections in Riyadh
Ali S. Al-Ghamdi 717

Accident involvement among learner drivers—an analysis of the consequences of supervised practice
Nils Petter Gregersen, Anders Nyberg and Hans-Yngve Berg 725

Occupant deaths in large truck crashes in the United States: 25 years of experience
Stephen Lyman and Elisa R. Braver 731

Assessing the validity of road safety evaluation studies by analysing causal chains
Rune Elvik 741

Traffic sense—which factors influence the skill to predict the development of traffic scenes?
Katja Vogel, Albert Kircher, Håkan Alm and Lena Nilsson 749

Evidence for an early onset of endogenous alcohol production in bodies recovered from the water: implications for studying alcohol and drowning
Jeffrey A. Hadley and Gordon S. Smith 763

Behavioural observations of adult–child pairs at pedestrian crossings
M. Suzanne Zeedyk and Laura Kelly 771

Studies of neck injury criteria based on existing biomechanical test data
G.S. Nusholtz, L. Di Domenico, Y. Shi and P. Eagle 777

An investigation of road crossing in a virtual environment
Gordon Simpson, Lucy Johnston and Michael Richardson 787

Assessing the driving performance of older adult drivers: on-road versus simulated driving
Hoe C. Lee, Don Cameron and Andy H. Lee 797

Older drivers and road safety: the acceptability of a range of intervention measures
Dianne Parker, Lorraine McDonald, Patrick Rabbitt and Paul Sutcliffe 805

Small female head and neck interaction with a deploying side airbag
Stefan M. Duma, Jeff R. Crandall, Rodney W. Rudd and Richard W. Kent 811

Short communication

Restricting intersection visibility to reduce approach speeds
Samuel G. Charlton 817

NUMBER 6

Papers

Content analysis of television advertising for cars and minivans: 1983–1998
Susan A. Ferguson, Andrew P. Hardy and Allan F. Williams 825

Accuracy of self-reported data for estimating crash severity
Michael R. Elliott, Kristy B. Arbogast, Rajiv Menon, Dennis R. Durbin and Flaura K. Winston 833

Decreasing number of young licence holders and reduced number of accidents. A description of trends in Sweden
Åsa Murray 841

Medicinal and illegal drugs among Danish car drivers
Inge Behrensdorff and Anni Steentoft 851

Passenger carriage and car crash injury: a comparison between younger and older drivers
Lawrence T. Lam, Robyn Norton, Mark Woodward, Jennie Connor and Shanthi Ameratunga 861

Injury risk function for the small female wrist in axial loading
Stefan M. Duma, Brian M. Boggess, Jeff R. Crandall and Conor B. MacMahon 869

Medical treatment and traffic fatality reductions in industrialized countries
Robert B. Noland 877

Looked-but-failed-to-see-errors in traffic
Mai-Britt Herslund and Niels O. Jørgensen 885

Driver hand-held mobile phone use and safety belt use
David W. Eby and Jonathon M. Vivoda 893

Why are sobriety checkpoints not widely adopted as an enforcement strategy in the United States?
James C. Fell, Susan A. Ferguson, Allan F. Williams and Michele Fields 897

Using traffic conviction correlates to identify high accident-risk drivers
Michael A. Gebers and Raymond C. Peck 903

Factors associated with young drivers' car crash injury: comparisons among learner, provisional, and full licensees
Lawrence T. Lam 913

Young novice drivers: careless or clueless?
A. James McKnight and A. Scott McKnight 921

Comparative analysis of vehicle–bicyclist and vehicle–pedestrian accidents in Japan
Tetsuo Maki, Janusz Kajzer, Koji Mizuno and Yasufumi Sekine 927

Relative risk of injury and death in ambulances and other emergency vehicles
L.R. Becker, E. Zaloshnja, N. Levick, Guohua Li and Ted R. Miller 941

Personality and behavioral predictors of traffic accidents: testing a contextual mediated model
Nebi Sümer 949

Effect of population density on mortality after motor vehicle collisions
David E. Clark 965

The value of statistical life in road safety: a meta-analysis
Arianne de Blaeij, Raymond J.G.M. Florax, Piet Rietveld and Erik Verhoef 973

Car insurance and the risk of car crash injury
Stephanie Blows, Rebecca Q. Ivers, Jennie Connor, Shanthi Ameratunga and Robyn Norton 987

The local spatial autocorrelation and the kernel method for identifying black zones. A comparative approach
Benoît Flahaut, Michel Mouchart, Ernesto San Martin and Isabelle Thomas 991
